Proposal to Amend Board Policy – Eligibility Appeals Board

(Action Item)

QUESTION: *Should the Executive Board amend Board Policy – Eligibility Appeals Board to change the structure and process of Eligibility Appeals Board hearings?*

RATIONALE: Member schools have requested changes to the current Eligibility Appeals Board policy at various times over the past year or so. The feedback has centered around perceived inconsistencies in the EAB's decisions from one appeal to the next. A change in the structure and process of the hearings would provide greater consistency in rulings, provide greater insight into the rules and interpretations, and provide a timing structure that allows schools to plan.

55. PRACTICE LIMITATION RULE (6A Pilot) (Approved May 2018 for a second one-year trial during the 2018-19 SY) (Revised May 2018)

- A. **Philosophy/Rationale.** The following statements outline the philosophy of this policy regarding in-season and out-of-season sports.
- 1) The spirit of the Practice Limitation Rule (6A Pilot) is that every school and participant shall have the same opportunity to practice prior to the first contest.
 - 2) The mission of OSAA member schools is to foster well-rounded individuals. The purpose of interscholastic athletics is to help educate boys and girls and not to prepare students for college athletics, which is a by-product of interscholastic competition available to a very small percentage of high school athletes.
 - 3) For most students, specialization in a single athletic activity is not in their best long-term interests.
 - 4) Students should be encouraged by coaches, administrators and parents to participate in a variety of school activities, including more than one sport during the school year.
 - 5) Schools should not allow use of school equipment, including uniforms and school district vehicles, and facilities by non-school organizations that promote a philosophy contrary to the above statements.
 - 6) 6A schools are looking to provide coaches with more opportunities for fundamental skill development at specified times during the Association Year.
 - 7) 6A schools believe that high school coaches are the individuals best-trained to guide and promote the health and physical welfare of all participants.
 - 8) 6A schools want to work with the OSAA to educate parents regarding the impact on the health and physical welfare of students who choose to specialize in one sport, year-round.
 - 9) There should be no promotion or publicity within a school for non-school programs, which promote a philosophy contrary to the above statements.
- B. **Individual Sports Limitation.** Schools may conduct practices and/or contests in individual sports (cross country, golf, swimming, tennis, track & field, wrestling) only during the designated OSAA sports seasons as outlined in Rule 6. Local school districts and/or leagues should establish their own policy restricting the involvement of their individual sports coaches in out-of-season programs.
- C. **Closed Period.** The Closed Period for out-of-season team sports begins on the first practice date of each Fall, Winter, and Spring season. Dates shall follow the NFHS Numbered Calendar, as adopted by the OSAA. The Closed Period shall last six weeks. During the six-week Closed Period, conditioning is the only activity allowed between out-of-season coaches and student(s) from their high school. Conditioning is defined as a session where students work on physical fitness and conditioning by use of weights, running, and/or exercises. Conditioning does not allow for the use of individualized and specialized sports equipment or apparatus, including but not limited to: balls, bats, protective equipment, blocking dummies, batting cages, charging sleds and other implements related to specific OSAA activities. Participation in conditioning activities must be optional.
- D. **Open Period.** The Open Period for all out-of-season team sports begins on the first Monday following the six-week Closed Period and ends when the next OSAA defined season begins. Dates shall follow the NFHS Numbered Calendar, as adopted by the OSAA. Fundamental skill development with an unlimited number of the school's student-athletes is allowed for a maximum of **six** hours each week per program. All open facility times shall be included in the weekly limitation. It shall be a violation of the Practice Limitation Rule (6A Pilot) if there is any attempt by a coach during the Open Period to coach student-athletes from his/her high school in a contest in the activity he/she coaches at that high school. For the purpose of this rule, a contest is any event (practice, scrimmage, game, etc.) that involves anyone other than the students at your high school. While boys and girls basketball (and soccer) are examples of the same sport, for the purpose of this rule they are considered different activities. Participation in Open Period fundamental skill development and/or conditioning must be optional. **NOTE:** The use of football protective equipment is prohibited from the conclusion of a school's regular and/or post-season until the end of the Association Year as outlined in Rule 6.6. This does not prohibit an individual student from using football protective equipment owned by the school when attending camps/clinics not organized by any member school personnel.

- 1. **Q.** Under the Practice Limitation Rule (6A Pilot), may a coach work on fundamental skill development with two students a day as was allowed previously?
 - A.** Yes, but only during the Open Period. During the Open Period coaches may work with an unlimited number of students on fundamental skill development for a maximum of six hours each week per program. All open facility times shall be included in the weekly limitation. During the Closed Period coaches are prohibited from working on fundamental skill development with any students.
- 2. **Q.** Under the Practice Limitation Rule (6A Pilot), is a coach allowed to coach student-athletes from his/her high school in a contest during the Association Year outside their sport season in the activity he/she coaches at that high school?
 - A.** No.
- 3. **Q.** Under the Practice Limitation Rule (6A Pilot), are coaches allowed to work on fundamental skill development with their students during the Open Period and organize their students to participate in contests while being coached by someone else?
 - A.** No.
- 4. **Q.** Under the Practice Limitation Rule (6A Pilot), how does the maximum of six hours each week per program work during the Open Period?
 - A.** Any fundamental skill development involving a coach and any number of students from the coach's school in the activity he/she coaches at that high school counts toward the maximum of six hours each week per program (football, girls' basketball, boys' basketball, etc.). A week is defined as Monday-Sunday. All open facility times shall be included in the weekly limitation.
- 5. **Q.** Are open gyms still permissible under the Practice Limitation Rule (6A Pilot)?
 - A.** Yes, provided they occur during the Open Period and fall within the maximum of six hours each week per program. The terminology has been changed to "open facility" and is applicable to gymnasiums, fields, tracks, etc.
- 6. **Q.** What are the penalties if a high school coach violates the Practice Limitation Rule (6A Pilot) by coaching members of his or her team during the Closed Period or in an out-of-season contest?

- A. Rule 5, “Violations of Regulations – Penalties”** - outlines violations of rules and penalties. As outlined in **Rule 5.2.**, violations of any rule of the OSAA could include probation, forfeiture, fines, suspension or expulsion from the Association. The Executive Board would determine the penalty.
- 7. Q.** Is a school in violation of the Practice Limitation Rule (6A Pilot) if an unpaid volunteer coach coaches both the high school team and an out-of-season team during the OSAA year?
- A.** Yes, this would be a violation. The Practice Limitation Rule (6A Pilot) applies to any coach associated with a high school program (paid, volunteer, etc.).
- 8. Q.** Under the Practice Limitation Rule (6A Pilot), may two high school coaches “trade” teams and coach each other’s teams in an out-of-season contest, or may a person coach a high school team and then arrange for his/her parent/spouse/family member to coach the out-of-season club team during the Association Year?
- A.** No. The intent of the rule is to provide high school coaches with more opportunities to teach fundamental skill development during specified times during the Association Year.
- 9. Q.** A coach of a high school team arranges for a parent/spouse/family member to coach that same team in an out-of-season contest during the Association Year. Is this legal under the Practice Limitation Rule (6A Pilot)?
- A.** No, this would be considered a violation.
- 10. Q.** Under the Practice Limitation Rule, may a high school coach work with a group of 9th graders before they turn out for a sport?
- A.** Yes, provided it occurs during the Open Period.
- 11. Q.** Under the Practice Limitation Rule (6A Pilot), may a high school coach conduct club team try-outs prior to the end of the Association Year?
- A.** No.
- 12. Q.** Under the Practice Limitation Rule (6A Pilot), may students serve as demonstrators at a clinic or camp at which their school coach is making a presentation outside of the OSAA season for that sport?
- A.** Yes, provided the clinic or camp occurs during the Open Period or Summer Season.
- 13. Q.** Under the Practice Limitation Rule (6A Pilot), may a coach own a club on which there are teams, which include members of his/her school?
- A.** Yes, but the coach may not personally coach a team with members of his/her school in the activity he/she coaches at that high school during the Closed Period. During the Open Period the coach may conduct fundamental skill development and/or conditioning but may not coach members of his/her school in a contest in the activity he/she coaches at that high school.
- 14. Q.** May a coach be present at a camp, clinic or practice during the Closed Period in the activity he/she coaches at that high school if his/her high school students are attending as participants?
- A.** No, a coach may not attend as an instructor or observer.
- 15. Q.** Would it be a violation of the Practice Limitation Rule (6A Pilot) for a coach to teach members of the high school program in a sport-specific class outside of the season for that sport during the Association Year?
- A.** No, so long as the sport-specific class meets the following conditions:
- 1.** The coach must be the teacher of record for the sport-specific class, and
 - 2.** The sport-specific class must be part of the regular school curriculum for which credit is granted, and
 - 3.** Enrollment in the sport-specific class must not be limited to team members.
- 16. Q.** Would it be a violation of the Practice Limitation Rule (6A Pilot) if a school was to offer a sport specific class for which the coach is not the teacher of record, and the coach was allowed to attend the class as a guest and teach sport specific skills to members of the high school program outside of the season for that sport during the Association Year?
- A.** Yes.
- 17. Q.** At what point does the OSAA consider a person to be a school’s coach?
- A.** Once a person and a school have verbally agreed that the person will perform coaching duties for the school, he/she is considered to be that school’s coach by the OSAA. At that time, all OSAA policies are in effect for that coach until such time that the coach resigns or is notified by the school that they are no longer a coach for that school.
- 18. Q.** May a returning coach work with students outside their designated sports season since the coach working under a one-year contract and has not signed a contract for the coming year?
- A.** No. Once a person becomes a school’s coach, the OSAA considers that person to be a coach for the school until such time that the coach resigns or is notified by the school that they are no longer a coach for that school. Coaches who resign and are then brought back in a coaching capacity by the same school in an attempt to circumvent OSAA policy are subject to penalties as outlined in **Rule 5, “Violations of Regulations - Penalties.”**

- 19. Q.** A school is conducting interviews for a vacant coaching position. Is the interviewee allowed to conduct a practice in part of the interview process?
- A.** Yes, but the trial practice session shall be no longer than 30 minutes in length.
- 20. Q.** Under the Practice Limitation Rule (6A Pilot), may a high school coach work with his/her own children during the Closed Period?
- A.** Yes, a coach may work with his/her own children at any time.
- 21. Q.** May a high school coach be present as a spectator at an out-of-season club team contest if his/her high school student(s) are participating on the team?
- A.** Yes, this is allowed during both the Closed and Open Period.
- 22. Q.** During the Closed Period, may a high school facility be used by an out-of-season student from that high school?
- A.** Yes, provided no coach from that school organizes the usage, is involved in it or is in attendance.
- 23. Q.** During the Closed Period, may a high school facility be used by an out-of-season coach to hold an out-of-season event or open facility?
- A.** Yes, provided no student from his/her high school is present.

Proposal to Add Board Policy – Air Quality Guidelines

(Action Item)

QUESTION: *Should the Executive Board add Board Policy – Air Quality to help schools determine if modifications to events should take place when there is poor air quality?*

RATIONALE: During times of poor air quality, schools look to the OSAA to direct them to know if practices and contests should take place. The OSAA believes that a policy in this area would prove useful to the membership when air quality is poor, and these guidelines will enable schools to act appropriately while keeping the safety of participants at the forefront.

Air Quality Guidelines

These guidelines, created in consultation with the Oregon Health Authority (OHA), provide a default policy to those responsible or sharing duties for making decisions concerning the cancelation, suspension and/or restarting of practices and contests based on poor air quality.

- A. **Designate Personnel:** *Given the random behavior of wind and air currents, air quality may change quickly. Schools shall designate someone who will monitor the air quality prior to and during outdoor activities. While typically due to wildfires, schools need to also consider non-wildfire situations if the air quality is unhealthy.*
- B. **Areas With Air Reporting Stations:** *The Air Quality Index (AQI) should be monitored throughout the day, and during an event, to have the best data possible to make informed decisions about conducting practices and competitions. School personnel shall review the AQI information for all regions throughout the state on either the Oregon Department of Environmental Quality (DEQ) website at <https://oraqi.deq.state.or.us/home/map>, the Oregon DEQ app “OregonAir”, or on the Environmental Protection Agency (EPA) Air Now website at https://airnow.gov/index.cfm?action=airnow.local_state&stateid=38 to determine if action is necessary (see chart below). Schools shall regularly review the AQI throughout events to assess deteriorating conditions.*
- C. **Areas Without Air Reporting Stations:** *Given the random behavior of factors related to the calculation of the AQI levels in different areas of the state (wind speed and direction) member schools not near a reporting station should consult with local state and/or federal authorities to help determine the AQI level in your specific area. If air monitoring equipment is not available, member schools should utilize the 5-3-1 Visibility Index to determine air quality.*
 - 1) **5-3-1 Visibility Index:** *Making visual observations using the 5-3-1 Visibility Index is a simple way to estimate air quality and know what precautions to take. While this method*

can be useful, you should always use caution and avoid going outside if visibility is limited, especially if you are sensitive to smoke.

- a) *Determine the limit of your visual range by looking for distant targets or familiar landmarks such as mountains, mesas, hills, or buildings at known distances. The visual range is that point at which these targets are no longer visible. As a rule of thumb: If you can clearly see the outlines of individual trees on the horizon it is generally less than five miles away. It is highly recommended that schools use pre-determined landmarks that were established on a clear day to determine their visual range.*
 - b) *Ideally, the viewing of any distant targets should be made with the sun behind you. Looking into the sun or at an angle increases the ability of sunlight to reflect off of the smoke, thus making the visibility estimate less reliable.*
 - c) *Be aware that conditions may change rapidly and always use the more conservative of multiple metrics (AQI, 5-3-1 Visibility Index, etc.).*
- D. **Act:** *This chart will help determine the action needed based on the air quality in your area.*

Air Quality Index (AQI)	5-3-1 Visibility Index	Required Actions for Outdoor Activities
51 -100	5-15 Miles	<i>Athletes with asthma should have rescue inhalers readily available and pretreat before exercise or as directed by their healthcare provider. All athletes with respiratory illness, asthma, lung or heart disease should monitor symptoms and reduce/cease activity if symptoms arise. Increase rest periods as needed.</i>
101 -150	3-5 Miles	<i>Because they involve strenuous activity for prolonged periods of time, all outdoor activities (practice and competition) shall be canceled or moved to an area with a lower AQI. Move practices indoors, if available. Be aware that, depending on a venue's ventilation system, indoor air quality levels can approach outdoor levels.</i>
151 -200	1-3 Miles	<i>Because they involve strenuous activity for prolonged periods of time, all outdoor activities (practice and competition) shall be canceled or moved to an area with a lower AQI. Move practices indoors, if available. Be aware that, depending on a venue's ventilation system, indoor air quality levels can approach outdoor levels.</i>
>200	1 Mile	<i>Because they involve strenuous activity for prolonged periods of time, all outdoor activities (practice and competition) shall be canceled or moved to an area with a lower AQI. Move practices indoors, if available. Be aware that, depending on a venue's ventilation system, indoor air quality levels can approach outdoor levels.</i>

- E. **Additional Resources:** *Schools may also refer to OHA's fact sheet regarding School Outdoor Activities During Wildfire Events at <https://apps.state.or.us/Forms/Served/le8815h.pdf>. NOTE: While OHA's guidelines do allow for light outdoor activities in the orange level, the intensity and duration of high school practices/competitions are not considered light activity.*
