

AUTOMATED SPORT PRODUCTION

The NFHS Network has partnered with **Pixellot** to offer a new hardware & software solution for automated live event production.

**One-time installation
in your athletic venue**

**Cover *all* events at *all*
levels in your venue**

**Fully automated
(*no people required*)**

HOW IT WORKS

- Panoramic view captures the whole playing field
- Auto-tracking feature enables cameras to follow the action
- No camera operator required
- Scoreboard automatically populates data for broadcast graphics
- All events stream to your branded school page on NFHSnetwork.com

HARDWARE

Fixed installation includes:

- **Camera Unit** – single-mounted unit contains weatherproof HD cameras
- **Scoring Device** – plugs into scoreboard for automated score graphics in broadcast
- **Video Processing Unit** – for combining the video feeds and creating the automated production

**DISCOUNTED PRICING
ENDS JANUARY 31ST, 2018**
