TO: Superintendents, Principals, and Athletic Directors

FROM: Peter Weber, Assistant Executive Director;  
Kyle Stanfield, Assistant Executive Director

SUBJECT: OSAA Rankings Committee Update – January 15, 2015

The OSAA Rankings Committee met on January 15 at the OSAA Office for the first time this school year to begin its review of the rankings, and in particular the Fall 2014 season.

The Committee has set dates for two upcoming public meetings. Both meetings will have public testimony where written correspondence will also be reviewed. Following the final meeting, the Committee will forward its final recommendations to the OSAA Executive Board for a vote at the Board's Summer Workshop, July 27-29, 2015.

#### OSAA Rankings Committee Future Meeting Schedule

- Wednesday, April 8, 2015 @ OSAA Office, Wilsonville, 10am
- Thursday, June 11, 2015 @ OSAA Office, Wilsonville, 10am

New members of the Committee were introduced and welcomed:

- Roni Illias, Beaverton HS Softball Coach (6A)
- Howard Rub, Astoria HS Football Coach (4A)
- Bill Crowson, Monroe HS Baseball Coach (2A)

As there was nobody present for public testimony, the Committee began by reviewing written correspondence received since their last meeting. Following this review, the Committee examined rankings scenarios and correlation studies of the current system, along with different percentage breakdowns and two-column vs. three-column approaches.

**Addition of Colley System and Tiebreaker:** The Committee spent time reviewing the Fall final rankings and correlation studies of their accuracy on a sport-by-sport basis. Overall, Committee members were pleased with the introduction of the Colley system and how it helped address gaps in the RPI only system. Anecdotal feedback for the new system has been mostly positive and correlation studies show that it was slightly more accurate across each of the Fall sports vs. last year's system. The Committee believes the addition of the Colley has improved the rankings.

One specific area of discussion that the Committee spent time on was how ties are broken. The current system breaks a tie by using the team with the higher RPI rank. OSAA Staff provided data to Committee members on how the Fall 2014 rankings would have looked if the higher Colley rank was used to break ties (see attachments). ***The Committee is interested in receiving feedback on the new system, especially people's thoughts and ideas around how best to break ties in the OSAA Rankings prior to its April 8 meeting.***

**Percentage Breakdown:** The Committee reviewed the change to the percentage breakdowns for the RPI during the Fall 2014 season (new 35/65 vs. old 40/60) and looked at correlation studies of different breakdowns, including two-column and three-column approaches. Committee members want to continue to examine the percentage breakdowns as we progress through the Winter and Spring seasons. Several members are content with the two-

column approach but there are others that believe a three-column approach improves the depth of data. ***The Committee is interested in receiving feedback on a two-column or three-column approach with regards to the percentage breakdown prior to its April 8 meeting.***

**Contests vs. Teams More Than One Classification Away / Schedule Manipulation:** The Committee believes that outright schedule manipulation has been greatly reduced with the early season dates currently in place (*Fall – Sept. 15; Winter – Dec. 22; Spring – Apr. 6*). Committee members will discuss potential dates for next year at their April 8 meeting. ***The Committee is interested in receiving feedback on potential dates for the 2015-16 school year prior to its April 8 meeting.***

**Rankings Freeze and Play-In Dates Summary:** The Committee briefly discussed the Rankings Freeze and Play-In Dates for 2015-16. OSAA Staff will follow up with members of classifications with play-in games and bring back a draft for consideration by the Committee at their April 8 meeting.

**Not Releasing Rankings At Start Of Season:** The Committee has received correspondence to this effect in the past and had discussions around this topic at this meeting. Proponents argue the “value” of rankings created from a small data pool during the first few weeks of each season. Detractors believe in the transparency of the system and see value in the fluctuations that take place from the beginning to the end of a season. Committee members discussed the issue at length but came to no consensus at this time to suggest a change. ***The Committee is interested in receiving feedback regarding this issue prior to its April 8 meeting.***

**Not Counting Any Contests More Than One Classification Away For Rankings:** The Committee has discussed this concept several times over the past couple of years without any real consensus. Proponents believe that a system designed to rank you within your classification doesn’t improve when games vs. classifications more than one away are included. Detractors have concerns over the impact this may have on scheduling, especially in non-metropolitan areas where travel remains a significant issue. Committee members spent a few minutes talking about this concept but are not recommending any changes at this time. ***The Committee is interested in receiving feedback regarding this issue prior to its April 8 meeting.***

**Counting Volleyball Pool Play Results:** The Committee received correspondence suggesting that pool play results in volleyball tournaments be counted in the rankings. This is a topic that past committees have discussed at length. Proponents believe that critical match data is not being considered by only counting bracketed play, perhaps as many as 12 matches a season. Additionally, not counting pool play can skew a team’s performance if they do poorly in pool play yet are successful in the Silver or Bronze division of a tournament playing weaker opponents. Likewise for the team that does well in pool play but loses in the first round of bracketed play vs. a stronger opponent. Detractors aren’t convinced that the extra data would actually improve the rankings and believe that coaches often use pool play matches to experiment with various lineups/rotations, primarily because they aren’t rankable contests. Concerns were also expressed about the myriad of pool play formats currently being used and the potential negative impact this could have on which teams are invited to certain tournaments (extra benefit to better teams, etc.) Committee members discussed this issue but came to no consensus at this time to suggest a change. ***The Committee is interested in receiving feedback regarding whether to count volleyball pool play results prior to its April 8 meeting.***

All written communication received will be forwarded to all members of the Rankings Committee for their review. Please send emails to [kyles@osaa.org](mailto:kyles@osaa.org). Contact Peter Weber ([peterw@osaa.org](mailto:peterw@osaa.org)) at the OSAA if you have any questions.
