Wrestling Contingency Group Meeting Wednesday, Sept 9 Zoom Meeting - 6:30 – 8p

Meeting Notes:

Group received an update from the Executive Director on current OHA guidelines related to school openings and sports/activities. A Q&A session with all participants was conducted.

The meeting focused discussion regarding implementation of the Oregon Wrestling Weight Monitoring Program. The adopted OSAA calendar for 2020-21 will now require shifting dates in order to complete the required assessment prior to participation.

The group is considering recommending the following:

December 14, 2020 – First day to complete required BIA assessments for wrestlers

February 27, 2021 – Last day to complete required BIA assessments for wrestlers

Wrestlers maximum decent period will be dependent upon assessment date

At this point there is not consensus on whether or not a growth allowance should be applied. We will discuss this again at a future meeting.

Focus of future meetings:

Regulation or policy changes for truncated regular season

Structure of culminating week
