OSAA OFFICIAL SOFTBALL – POLYCORE

Effective Spring, 2015

Wilson A9011B00SAA

(COR .47 max) poly center, compression 375 lbs. max

Softballs must include NFHS, COR and Compression stamps to be legal.

The A9011B00SAA (poly/cor.47) optic yellow with red stitch softball is the official softball of the OSAA, effective the 2015 season. Schools are encouraged to use Wilson softballs during regular season play.

It is the host school's responsibility to provide official Wilson softballs for all playoff games at home sites. Following the playoffs, the OSAA will send each school three Wilson softballs for each game hosted.

This change is the result of an OSAA school survey that was conducted in June, 2013. Survey respondents were 75% in favor of the change, largely due to the durability of the polycore ball versus the corkcore ball.
