The projected weight determines the eligible weight classes for the wrestler each week. If the wrestler participates, he/she must qualify at one of these weight classes during each week of participation in order to reach the lowest eligible weight class listed on the plan.

The wrestler reaches their minimum wrestling weight in Week 9. Eligible weight classes will remain the same for the remainder of the season.

The wrestler is eligible at the weight classes listed for the week (Sunday to Saturday) that contains the date listed.

This form designates your eligible weight classes for each week of the season. You must qualify at one of these

eligible weight classes during each week of participation. If you fail to qualify at an eligible weight class during a week, you will lose the lowest eligible weight class listed for that week. This season long weight loss plan has been approved by the Oregon Wrestling Weight Monitoring Program following the appeal procedures outlined in the program rules.

**All weight loss plans will terminate the week of 2/11/19**

**The number of weeks a wrestler has to achieve their minimum wrestling weight that determines the minimum weight classes of participation is directly related to the date of initial assessment.**

**A wrestler assessed in Week 1 will have 14 week weight loss plan compared to a wrestler assessed in Week 4 will have a 10 week weight loss plan.**

**Note: The date of your Special District Tournament will impact the length of the weight loss plan. Weight loss plans for wrestlers participating in Special District Tournaments the week of 2/4/19 to 2/10/19 will terminate 1 week earlier than those participating in tournaments held 2/11/19 to 2/17/19.**
