Rules

October 14, 2008

Dear High School Golf Coach or Administrator,

Throughout the year, the OGA puts on hundreds of presentations to clubs and college teams throughout Oregon and SW Washington and would like to extend this offer to high school golf teams. Ultimately, as the Rules put the responsibility on the player for knowing and following the Rules of Golf, I would like to invite high school golf coaches and administrators to contact the OGA to schedule a Rules of Golf presentation at their school. Ideally, I would request districts work cooperatively to bring many teams to one venue at a single date.

A Rules of Golf presentation will cover the basic Rules and definitions and can be customized to deal with specific situations or trouble areas that are commonly misunderstood by your players. In addition to a PowerPoint presentation, on-course demonstrations provide hands on learning that will be certain to provide a solid base that your players will be able to build on during their entire career on the golf course.

The Oregon Golf Association is committed to becoming the regional leader in Rules of Golf Education. From educating a professional staff of volunteer Rules Officials, to providing free Rules of Golf presentations to clubs, golf teams, and workshops throughout the state, the OGA strives to provide the highest level of education on the Rules of Golf.

I look forward to hearing from you soon.

Regards,

Craig Winter
Manager of Rules Education
Oregon Golf Association
