Hello,

I have been working on a 5 classification model and was waiting to see the new updates. I will email that to you Monday (my laptop is at school that has that proposal).

I would like to give a suggestion for the current 6A proposal (#2). My thought about teams having to travel greater distances would be better off in smaller leagues, so I re-arranged the 3A classification into 8 leagues for you to look at. Overall I think the 6A model #2 isn't too bad. As far as state playoffs are concern, for most sports the [3@2](#) winner @1 model works.

Thanks for your work
