Subject: 6 Classification proposal (With 5 Regions)

Mr Weber,

I attended the last hearing as an observer. While there were many great points of view, I found there was a potential lack of stability in the process. Four years ago was a dramatic change for Oregon HS sports and I am afraid another dramatic change would be disruptive again.

My proposal can be printed from the following link:

<http://www.tuleya.com/oregon/0202plan.html>

There are links to the proposed districts in each classification.

Ray J. Tuleya

6 Classifications with 5 Regions

The idea is to not make major changes in districts or classification in 2010
The push for larger districts don't necessarily work geographically
Instead, this would be best solved by regional grouping using counties
These regions would help districts and schools set up non-league games
Neighboring regions would work together, especially on shared districts

6A Classification Districts

This keeps all the current 6A districts; except the PIL (merges with 5A PIL)
ADM base essentially unchanged. Many 6A schools have much higher ADM
8 schools moved to 5A due to either ADM drop or not playing up anymore
Smaller districts work better geographically, but need non-league regions

5A Classification Districts

This keeps the current 5A districts and adds a new East Metro district
ADM upper limit essentially unchanged; lower limit drops slightly
There would be 45-52 teams depending final ADM #'s and who plays up
This gives most Portland schools the opportunity to stay in the PIL

4A Classification Districts

This keeps 6 of the 7 current 4A districts, improving the committee's Draft #2
ADM limits are changed to keep most current 4A teams in the 4A classification
A new Portland area district including PIL schools is from Federico's proposal
Plan could change if ALL the smaller PIL schools want to stay in the 5A PIL

3A Classification Districts

Current upper ADM is maintained at a natural break between 3A and 4A.
This follows the committee's draft #2 split of the Sunset into 2 districts
This lowers the ADM base to keep Myrtle Point with the Coastal schools
This also divides the Northern two districts into three geographically
