Re: Adjustments to the six classifications

I have two main ideas for you to think about that would help more schools with travel problems. I realize there will never be a perfect solution to accommodate all schools.

- First idea is that of intervals for cutoffs instead of a single cut off number. For example, schools greater than 1490 would be 6A and schools between 1200 and 1490 would 6A or 5A depending on location. Schools could choose to play down knowing they will travel more.
- The second idea is to have smaller districts when possible. This way schools could have more options for non-league games of teams from different classifications. If this is not possible, then I would suggest large leagues of 10 to 12 teams that are split into two divisions. An example would be as follows:

**6A Southwestern Conference**

<u>North</u>	<u>South</u>
South Eugene	Roseburg
Sheldon	Grants Pass
Willamette	Crater
Thurston	North Medford
	South Medford

Here is my recommendation for district adjustments for 2010:
