Below is the percentage of students the smallest school would have as to compared with the largest school in that level.

1A		**129**	**The %**
2A	**130**	**274**	0.474
3A	**275**	**645**	0.426
4A	**646**	**1374**	0.470
5A	**1375**	**2939**	0.468

Red = have said they want to play up?

East Linn Christian 114
Horizon Christian 96

? = do they play up?

Blue = Enrollment is less so they would be playing up.

Some of the schools may need to be shuffled a bit as I am not sure how the travel was changed, but this would be my idea as I see it in a 5A format.
