Re: **Wilson Colored-Panel Volleyballs**

Wilson Sporting Goods is proud to be the officially adopted volleyball of the OSAA State Championships. Through the OSAA's partnership with Wilson, we are able to provide the best product available at our state championship events. In addition, Wilson makes an annual financial commitment to the OSAA that helps provide participation opportunities for Oregon high school students.

As many of you are aware, the NFHS has approved use of a colored-panel volleyball for play starting with the 2010-2011 school year. Wilson currently provides several dozen I-COR High Performance game balls for use during the OSAA State Championships. Beginning with next year's events, the OSAA will be using the White/Blue/Silver combination at our state championship final sites.

If you already use a Wilson I-COR Volleyball throughout the season, then you know the benefits of the Japanese full-grain leather cover and the multi-layer construction that improves all aspects of the game. We encourage you to take advantage of the multiple color options that Wilson has available and support them as the officially adopted volleyball of the OSAA State Championships.

Wilson is ready to meet your school's needs for a colored-panel volleyball in multiple color options for the 2010-11 school year and beyond. Please take the time to visit www.wilson.com to see the lineup of colored-panel volleyballs available. You can contact your local team sports dealer to place an order.

Please contact me with any questions. You may also contact Kane Ten Pas, our Wilson Team Sports representative, at 503.475.5003.
