Football Contingency Group Meeting Wednesday, Jan 6 Zoom Meeting - 6:00– 7:30p

Meeting Notes:

The group received an update on the new county metrics model now in place. Each two week cycle (Warning week then Movement week) counties are placed at the corresponding metric level (Low, Moderate, High, Extreme) each with unique restrictions.

Staff also reviewed the revised OSAA calendar and worked through the philosophy behind any remaining options if some type of change is required moving forward.

The NFHS has provided states planning to participate in modified seasons with guidance and recommendations. Brad shared the excerpt from the document that outlines considerations for Fall 2021.

Focus Questions:

1. Any regular season recommendations for the Board to consider?

Consideration should be given to allow 6 quarters of play at all levels to help ease scheduling.

2. Culminating Activity?

The group supports local control with the culminating week.

Next Meeting: TBD
